Sprint 1

Goal

Complete documentation for project and begin to learn Android environment

Summary

Features implemented: None (focus for Sprint 1 was all documentation)

Issues Fixed: No issues yet because we haven't started writing code

What went well: We got the majority of the documentation done

What problems occurred: It was hard to get everyone to meet all together at once

How problems were solved: FaceTime

Changes made: Changed meeting time to better accommodate everyone's schedule

What went well in SCRUM: We were able to come together and track everyone's progress and discuss any potential issues

What could be improved: Sometimes we did SCRUM in the middle/end of our meeting instead of the beginning because not everyone was available

What changes will be made: Will do SCRUM at the beginning of our sessions

What will be done next sprint: GRL and design models document, configuration management plan document

Sprint 2

Goal

Begin implementation of project and create GRL and UCM Models document and Configuration Management Plan document

Summary

Features implemented: UI Mockups

Issues Fixed: No issues

What went well: Got a lot of documentation done

What problems occurred: It was hard to get everyone to meet together all at

How problems were solved: After dividing up the work we met in smaller groups

Changes made: Updated backlogs, SRS document, and kanban board

What went well in SCRUM: Meeting was more organized and quicker than last sprint

What could be improved: Not everyone shows up on time

What changes will be made: Make sure everyone comes on time

What will be done next sprint: Continue working on GRL, UCM, and CMP documents

Sprint 3

Goal

Finish GRL, UCM, and CMP documents for deliverable 2

Summary

Features implemented: None (still focusing on documentation and not implementation)

Issues Fixed: No issues

What went well: Everyone did their fair share of work

What problems occurred: Midterms fell right in the middle of this sprint, so there were a lot of time conflicts

How problems were solved: Had shorter meetings so our team members had time to study for their exams

Changes made: Our meetings were shorter to accommodate everyone's busy schedule this sprint

What went well in SCRUM: Everyone participated

What could be improved: The time/ dates of our SCRUM meetings

What changes will be made: We will begin meeting on Mondays instead of Fridays

What will be done next sprint:

Sprint 4

Goal

Update existing documentation and begin creating architecture, design, and privacy and security documents

Summary

Features implemented: Login page and email verification

Issues Fixed: None

What went well:

What problems occurred: Cloning repository on everyone's computer

How problems were solved: Still working on resolving the problems

Changes made: We began meeting in the CS building instead of the library

What went well in SCRUM: Meeting went faster because everyone is starting to get used to SCRUM

What could be improved: We are still having issues with scheduling meetings at a time that everyone can attend

What changes will be made: We will summarize our SCRUM meetings in our group chat so that those who cannot attend will still be informed

What will be done next sprint: Implementation and testing

Sprint 5

Goal

Focus on implementation and testing of application while continuing to update existing documents

Summary

Features implemented: UIs, user profiles, and integration with Google Maps

Issues Fixed: No issues

What went well: Almost everyone was able to attend SCRUM this sprint

What problems occurred: A lot of tests and projects from other classes were scheduled during this sprint

How problems were solved: We divided and conquered the tasks based on everyone's workload

Changes made:

What went well in SCRUM: The majority of our group was able to attend

What could be improved: Everyone could be a little more energetic

What changes will be made: None. This sprint's SCRUM meeting went pretty well

What will be done next sprint: We will finalize everything and prepare for our final presentation

Sprint 6

Goal

Summary

Features implemented:

Issues Fixed:

What went well:

What problems occurred:

How problems were solved:

Changes made:

What went well in SCRUM:

What could be improved:

What changes will be made:

What will be done next sprint:
